DIRECTOR'S STATEMENT

With the benefit of over 30 years experience and a turnover and client base that continues to grow year on year, we are confident that Wye Valley Demolition Limited is being recognised as being a first-rate provider of demolition services.

Wye Valley Demolition is part of a group of companies that operate from a purpose built, 35 acre, one-stop recycling facility. We offer a high standard of service that combines our quality policy, a pricing structure that meets the client's requirements and the 'know how' that only a company with 30 years experience can bring.

Wye Valley Demolition has evolved and adapted to meet the needs of not only the regulations that control our industry, but also the wishes of our clients. It has become evident to us that our business is predominantly a result of recommendation or repeat ordering. Proof enough, that the service provided in itself, is an effective marketing tool.

Andrew Howell
Managing Director

WYE VALLEY DEMOLITION operates nationally and has over 30 years experience in the demolition industry. We provide an integrated range of services; Demolition, Land Remediation, Dismantling, Stripping Out, Bulk Excavation, Site Clearance, Concrete Crushing and Asbestos Removal.

POLICY & ACCREDITATIONS

We offer a high standard of service driven by our Health and Safety, Environmental, Quality and Social Responsibility policies. We are members of the National Federation of Demolition Contractors; accredited by site audit and hold ISO9001 Quality Management, ISO14001 Environmental Management and BS OHSAS18001 Occupational Health & Safety accreditations ahead of many businesses in the field. We are Achilles Link-up Qualified by Audit, SAFEcontractor and CHAS accredited.

EXPERIENCE, QUALIFICATIONS & TRAINING

The company has successfully completed contracts up to the value of £3.2M for a range of high profile clients including working recently for Anglo American (Tarmac), Balfour Beatty (Birser), Carillion, Midas and Skanska. We carry out all our works within the CDM 2007 regulations, predominantly in the role of Principal Contractor. Our Management Team and Supervisors have a wealth of experience and hold qualifications appropriate to a national contractor. We are members of the CITB, National Demolition Training Group, European Demolition Agency and the Freight Transport Association, hold a CSCS Gold Certificate for trained employees and made a commitment to 'Investors in People' in 2009.

SOCIAL AND ENVIRONMENTAL RESPONSIBILITIES

As a major demolition, waste management, recycling and reclamation business, we acknowledge our responsibilities towards society and the environment.

Working towards a more sustainable business is at the heart of Wye Valley Groups' policy. We are continually seeking innovative ways to reduce the amount of waste sent to landfill, thus ensuring the business and its operations have a more positive environmental impact. We are constantly working with client "partners" to achieve the recommendations of UK Sustainable Development Commission and are members of WRAP (Government funded Waste Recycling Organisation) 'Halving Waste to Landfill Initiative'.

Wye Valley Groups' activities are important assets to the local community. We are substantial employers in the community and contribute in many other ways: through charitable donations, environmental development schemes and any other ways we can usefully contribute to the strength and wellbeing of the local society of which we are proud to be a part.

THE SERVICES

WE PROVIDE:

Asbestos Removal

Brick by Brick Deconstruction

Building Reclamation

Bulk Excavation

Contract Crushing

Plant Hire

Recycling

Screening

Site Clearance

Soft Strip

UK Rail Network Approved

Waste Disposal

Waste Management

MISSION STATEMENT

Wye Valley Demolition endeavours to provide demolition and related services to its customers that are of a high standard. We strive for Wye Valley Demolition's name to be synonymous with excellence. To gain a reputation for providing a first class service and to be recognised in the industry as reliable, superior and safe.

THE ROLE OF WYE VALLEY DEMOLITION

Our role can be summarised as follows:

- To supply demolition services that are designed and developed to our customer's requirements.
- To offer and provide a full range of support services.
- To be knowledgeable about all of our operations.
- To be continually improving its services.

OUR COMMITMENT TO YOU – The Customer

- To ensure that the method statement that has been agreed by you, the customer, is adhered to.
- To provide appropriately trained (to industry standard and further) and competent personnel to complete the job.
- To provide a contact that is always available.
- To ensure that all machinery is inspected and tested regularly, is of a high standard and fit for purpose.
- To work within and beyond safety legislation.

HEALTH AND SAFETY

We are accredited to BS OHSAS 18001:2007 Occupational Health and Safety Management.

This Company accepts that it has legal and moral responsibilities for ensuring the health, safety and welfare of its employees and others that may be affected by the way it carries out its business. It is therefore the policy of this Company that matters of health, safety and welfare will rank equally with other business considerations.

ENVIRONMENT

We are accredited to ISO14001:2004 Environmental Management System.

Wye Valley Demolition recognises the need to protect the environment in which we live and work and use natural resources prudently across the whole of the services that we provide. A sustainable environment is one of the key elements of regeneration process to which we are committed working with client "partners" to achieve the recommendations of the UK Sustainable Development Commission.

We are also signed up to WRAP's 'Half waste to Landfill'; the government sponsored Waste and Resources Action Programme initiative.

Site Waste Management Plans SWMP Regulations 2008 require the implementation of a site waste management plan for major projects. Wye Valley Demolition creates plans with the re-use of materials of greater than 95%. This means there is a minimum of materials having to be sent to land-fill.

Wye Valley Demolition Ltd holds Waste Carrier certificate number BUS / 721858.

Eastside 2000 Ltd holds Waste Management License number EAWML 30391.

QUALITY

As a reflection of our long-term commitment to quality, we have an accredited Quality Management System certified against ISO9001:2008.

The purpose of the quality management system is to ensure that the demolition services provided to our customers consistently meet and exceed their expectations. We accomplish this by supplying a demolition service that is tailored to the customer's individual specifications and requirements. This is achieved by liaising with the customer at every stage, and by the prevention of non-conformance.

TRAINING

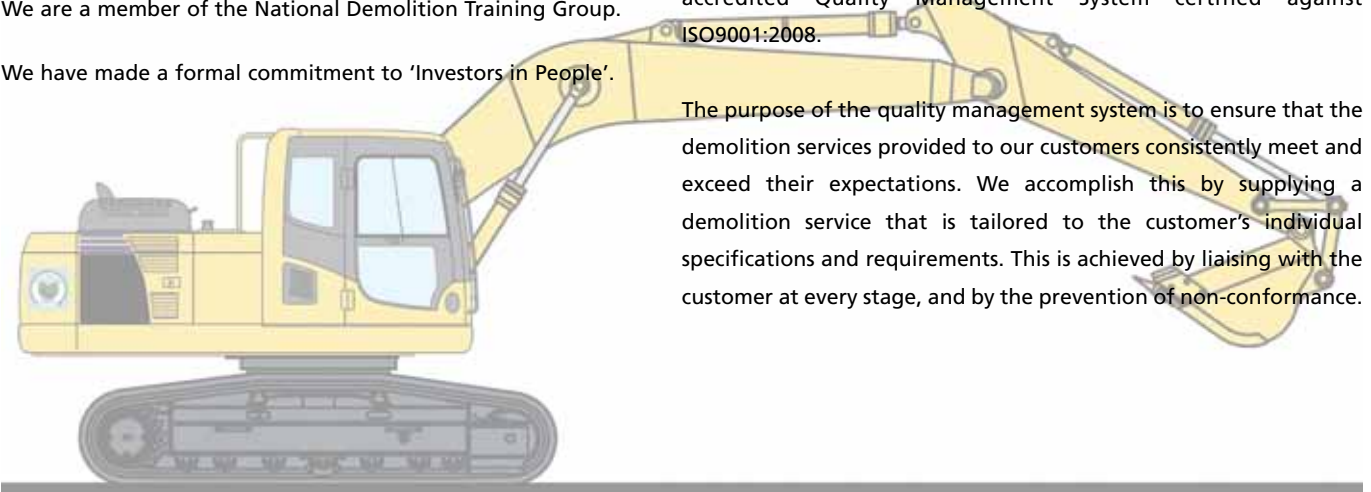

Wye Valley Demolition has its own dedicated training department.

We believe that it is essential for our employees' to be competent in their role as demolition operatives. Our employees are selected with care to ensure that our high standards of quality and professionalism are met. The department works closely with the C.I.T.B to ensure that all employees' are trained to the highest standard available in the demolition industry.

Time is set aside to ensure that each employee is health and safety tested and progresses onto the next level of the training programme. There are records kept that tracks all employee's progress. We are confident that each employee that goes out onto site is competent and very health and safety aware.

We are a member of the National Demolition Training Group.

We have made a formal commitment to 'Investors in People'.

ACCREDITATIONS and CERTIFICATIONS held by WYE VALLEY DEMOLITION LTD

We are member of The National Federation of Demolition Contractors. The Federation is dedicated to a continual improvement of the demolition industry for the benefit of its members, customers and the general public through training, monitoring and policing of best practices.

We are members of The National Demolition Training Group (NDTG). It was formed in 1978 with the sole objective of providing specific and relevant training opportunities to demolition workers. Operated jointly by the National Federation of Demolition Contractors Ltd (NFDC) and CITB Construction Skills. The NDTG also links closely with the NFDC in the delivery and development of Demolition related NVQs via the NFDC NVQ approved centre.

As a reflection of our long-term commitment to quality, we have an accredited Quality Management System certified against ISO 9001:2008. At Wye Valley Demolition, our quality system is one which has been devised to embrace the whole organisation and all of the companies operations. The ISO 9001:2008 represents an international consensus on good quality management practices.

We have signed up to the WRAP initiative 'Halving waste to Landfill'. The construction industry is responsible for some 120 million tonnes of construction, demolition and excavation waste every year – around one third of all waste in the UK. Our agreed objective is: 'We commit to playing our part in halving the amount of construction, demolition and excavation waste going to landfill by 2012. We will work to adopt and implement standards for good practice in reducing waste, recycling more, and increasing the use of recycled and recovered materials'

Wye Valley Demolition has achieved the ISO 14001:2004 standard. ISO 14001:2004 is an Environmental Management tool enabling an organisation of any size or type to identify and control the environmental impact of its activities, products or services, and to improve its environmental performance continually, and to implement a systematic approach to setting environmental objectives and targets, to achieving these and to demonstrating that they have been achieved.

We hold a CSCS Gold Certificate. Construction Skills Certification Scheme. CSCS was set up to help the construction industry to improve quality and reduce accidents. CSCS cards are increasingly demanded as proof of occupational competence by contractors, public and private clients and others. A Gold CSCS certificate of commitment shows that over 75% of an organisation's workforce holds CSCS cards.

Wye Valley Demolition has achieved the BS OHSAS 18001:2007 standard. It is an international occupational health and safety management system specification created via a concerted effort from a number of the worlds leading national standards bodies, certification bodies, and specialist consultancies.

We have a 'Certificate of Commitment' for 'investors in People'. 'Investors in People' has grown to be the UK's leading people management business improvement standard because it delivers improved performance to thousands of organisations.

We have gained 'Link-up qualified via audit'. 'Link-up' is the UK rail industry supplier qualification scheme, providing a single common registration, qualification and audit process for suppliers that is shared by the UK rail industry.

We are accredited to Constructionline. Constructionline is the UK's largest certified pre-qualification database used by over 60% of local authorities, reducing duplication and save time and money by encouraging organisations to use a single source for pre-qualification.

We are accredited to Safecontractor. As a leading health and safety pre-qualification assessment scheme, they are dedicated to promoting higher standards of competence and compliance through the provision of relevant industry specific and tailored health and safety assessments for all professions and sectors.

We are accredited to CHAS. CHAS is the market leader for health and safety pre-qualification in the UK. It is a non-commercial scheme available to suppliers (those who provide goods and services) and to organisations (buyers) looking for suitably competent suppliers.

We have signed up to this important initiative which operates voluntary Site and Company Codes of Considerate Practice, with which participating construction companies and sites register. The Scheme is a non profit making, independent organisation founded by the industry to improve its image. The Scheme is neither grant maintained nor funded by the Government and is solely financed by its registrations.

WYE VALLEY METALS

Wye Valley Metals has now become the leading processor of scrap metals in the Herefordshire area and surrounding counties. Sourcing comes from factory contracts, demolition projects, delivery to site from businesses and the general public. Just turn up at our site with your scrap or contact us first if you need help to bring it in.

Wye Valley Metals operate a fleet of skip and roll on/off vehicles for collection of scrap metal arisings from manufacturing works, demolition sites and factory. A wide range of skip sizes and shapes are available to meet the client's individual requirements, as well as vehicles of 18, 24, 32 and 44 tonne gross vehicle weights.

We have a DVLA 'End-of-Life' approved facility. Please bring your car or vehicle in at any time along with your Registration document and we can immediately issue your DVLA 'Certificate of Destruction.' All materials are weighed using our licensed public weighbridge which can be used for public weighing for a small charge.

WYE VALLEY SKIPS

Wye Valley Skips not only supply skips, we also offer a comprehensive Waste Management Service. We undertake the collection of all types of inert, hazardous and asbestos waste. This includes industrial, household & commercial, serving both Registered Waste Carriers and Domestic customers. Skips sizes range from a midi and standard builders skips to 40 cu yd containers. We offer special rates for segregated materials.

Whether you require a one-off skip, exchange service or long term/rental plan – just ask and we'll be delighted to meet your needs.

Skips available are:

Midi Skips waste capacities of 4 cubic yards and are particular popular with domestic customers.

Builder skips holds up to 6 cubic yards of waste is also popular with domestic customers.

Larger Skips available are 8 - 14 cubic yards (suitable for voluminous lightweight waste materials)

Roll-on/off Containers for trade use are available from 20 to 40 cubic yard capacities.

METALS

SKIPS

THE WYE VALLEY GROUP OF COMPANIES

The **Eastside Recycling Facility** is the Wye Valley Group's centre of operations, a 35 acre site based in Rotherwas Hereford. After moving to the site in 2006, it is the head office for the Wye Valley Group of companies: Wye Valley Metals, Wye Valley Skips, Wye Valley Demolition and Wye Valley Reclamation and is one of the first dedicated recycling facilities in the UK to attain ISO:14001 Environmental Management System for all their activities. This includes waste management, hazardous waste handling, DVLA End-of-Life Vehicle destruction, skip hire, WEEE, scrap metal, waste carrying and all the associated recycling operations.

WYE VALLEY RECLAMATION

Wye Valley Reclamation is now established as the largest reclamation site in Herefordshire, stocks a large and varied amount of Architectural Salvage such as Cast Iron Baths, Cast Iron Radiators, Belfast Sinks, Ornamental Fireplaces, Slates and Tiles, Bricks and Stones, Timber of all shapes and sizes and lots lots more.

Construction and Building We stock and supply a wide variety of reclaimed building materials and Architectural salvage suitable for property renovation and restoration predominantly sourced locally to ensure a perfect match for your building project.

Interior Design Our warehouse is full of endless possibilities for you to create your perfect home. From period features to the raw materials to create your own design, there is something to suit you. Items could be a simple mirror to hang on the wall or a more in depth transformation of a room replacing floor boards, doors, or fireplace.

Garden If you are one of many people who do not want their garden to be the same as any other then we are the people to visit. We have a whole range of unusual items suitable for the garden enabling you to create a unique design.

Restoration & Creation If required, we can repair and restore most items and offer this service not just for the items that we sell, but for items you may already own but do not have the facilities to carry the work out yourself; such as re-finishing a cast iron radiator; cleaning an old beam; or repair to a piece of furniture. We will also construct green oak (or reclaimed oak/pine) garden structures to clients specifications working with you to create exactly what you are looking for.

WYE VALLEY DEMOLITION

At the Eastside Recycling Facility, Wye Valley Demolition operates a crushing, screening and recycling facility, processing materials from local construction and demolition projects and turning them into re-usable, secondary aggregate products for the construction industry. Additionally to compliment the range of aggregates and soils available, a muck shift service is available for delivery and disposal into approved sites.

Wye Valley Demolition was initially formed to ensure a constant supply of scrap metal but has grown into an entity of its own, with a national client base and repeat business with the likes of Carillion, Lovell, Redrow and many local councils. Recently completed projects include a 30 acre Sony plant, 20 acre Ford transmission plant and local projects include the former B&Q, Holmer Road, Painter Brothers redundant buildings, White Cross School and the Arthur Oakley warehouses to make way for the much needed Rotherwas relief road.

RECLAMATION

PLANT, MAJOR EQUIPMENT and TRANSPORT

Telescopic Handlers x 6 up to 16 metres
Tracked and Wheeled 360 / 180 degree excavators x 18 up to 60 tonnes with specialist attachments
Demolition Specification Long Reach excavator.
Tracked and Wheeled Loading Shovels / Dozers x 12 up to 25 tonnes.
Mobile Jaw Crushers x 2
Screening Equipment
Large range of small plant, eg Mini-diggers/compressors etc.
150 tonne Low loader
44 tonne tractor units x 3 with up to 100 cubic yard tipping / flat trailers
8 wheel tippers x 10
8 wheel roll-on / off x 5 with a range of de-mountable bodies
6 wheel tippers x 4
4 wheel skiploaders x 4 with a range of skips
4 wheel tippers x 5
All of our machines are subject to a daily check, weekly inspection and statutory tests and inspections.
All of our machine operators are CPCS accredited.
